Green = Improved Yellow = Stayed the same this year but improved since baseline Red = Not Improving

Several Penn State Health Milton S. Hershey Medical Center (PSHMC) initiatives may have contributed to the positive trends:

- Financial Counseling and Insurance Enrollment and CHIP Awareness and Enrollment Programs were offered at community events and in clinical locations to help individuals enroll in insurance programs.
- A Food Box Initiative, in partnership with the Central Pennsylvania Food Bank, was pilot tested in two Penn State Health clinical sites with plans to expand to additional locations. Based on responses to two food insecurity questions, staff members provide healthy food boxes and recipes; connect families to their local food pantry; and assist with completion of Supplemental Nutrition Assistance Program (SNAP) and Women, Infant and Children (WIC) applications for those who qualify. In FY 18, the food boxes reached 126 family members.
- 1,009 people reached through Smoking Prevention and Cessation Programs including 566 members of the LGBTQ community at 13 events. Eighty-nine LGBTQ individuals participated in Carbon Monoxide Testing and 48% of the identified smokers agreed to follow-up to help them quit.

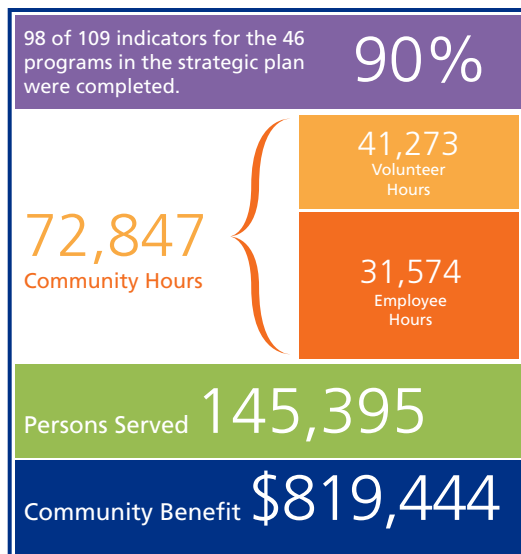

Multiple initiatives are taking place to address objectives that are not improving:

Behavioral Health

- ADHD Program
- Autism Spectrum Disorder Program
- Drugs 101
- Drug Take Back
- Opioid Task Force and Stewardship Program

Healthy Lifestyles – Physical Activity

- Walking Friendly Community Assessment
- Walk Central PA Walk
- Bike Share Program

Community Health Needs Assessment 2018 Implementation Strategy

Second Year Report Card

Five South Central Pennsylvania Counties
Cumberland • Dauphin • Lebanon • Perry • York
